Seventy-eight Paintings,
comprising the choicest examples of the respective masters,
collected by Mr. Cozzens during a period of thirty years of
the most intimate relations with art and artists.
Mr. Cozzens was a liberal and intelligent patron of
American art, and his opportunities, accordingly, for procuring representative works of our school were of the best
kind. Most of his pictures were presented of the artists who
painted them at a time when they were founding their reputation and working with that degree of carnestness which is
characteristic of the best period of an artistic career. Many
of the pictures belonging to his collection might be cited as
the best productions of their painters. Such an opportunity
for procuring works of American art, valuable in connection
with its history, may not soon occur again, for there is no
representative collection in private hands equal to it.
